## PROJECT

### DOCFIND(ITEE CONTEST)

Help users to find Doctors remotely

- Centralize Database to find doctors
- Users are able to make an appointment remotely through this web app
- Built using Django, RestAPI

### PLASMA TRACKER (WEB APP)

Intended to connect plasma donor with patient during COVID19

- Help novice user to connect with plasma donor in their nearby area
- Advanced search filtering
- Built using HTML,CSS, JS, PHP and MySQL

### TEXT GENERATOR

This system is able to generate random sentences from a given corpus

- It can create a Markov Chain from a corpus
- Can predict the next word of a pseudo sentence
- Built using Python(NLTK, Pandas)

## ACADEMIC HISTORY

### BRAC UNIVERSITY

Bachelor of Computer Science and Engineering, 2018-2022

- GGPA 3.71 out of 4
- Member of Bracu Computer Club

### CAMBRIAN COLLEGE

Graduated with GPA- 5.0, 2014-2016

- Academic Award for Outstanding Performance

## SKILLS AND ABILITIES

### PROGRAMMING LANGUAGE

- HTML5
- CSS3
- JAVA
- Python
- MySQL
- Javascript

### OTHERS

- WordPress
- ReactJS
- Tailwind CSS
- Django
- REST API
- Bootstrap
- Git
- MS Word
- Powerpoint
- Linux
